

ALLOWABLE SUBJECT MATTER

Applicant acknowledges with appreciation that Claims 10-12 and 18 are objected to as being dependant upon a rejected base claim, but would be allowable if re-written in independent form including all of the limitations of the base claim and any intervening claims.

In summary, Applicant has cancelled Claim 10 and combined the limitations thereof with that of Claim 1 (Twice Amended) to place it in condition for allowance.

Further, Applicant has cancelled Claim 18 and included the limitations thereof with that of Claim 13 to place it in condition for allowance.

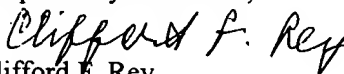

DRAWING OBJECTIONS

The drawings (Figs. 1-4) are objected to under 37 CFR 1.83(a) because they fail to show tail fin stabilization as described in the specification (from the amendment filed 7/7/97). Correction is required in accordance with MPEP § 608.02 (d).

Accordingly, Applicant has submitted proposed drawing corrections herewith as a separate paper with a transmittal letter addressed to the Official Draftsperson.

Applicant respectfully submits that the Application is now in full condition for allowance. Reconsideration and withdrawal of the rejections is respectfully requested.

Respectfully submitted,
